RE: OBJECTION TO DRAFT PROPOSED CONDITIONS OF PUD APPROVAL OF
JUPITER ISLES RELATING TO 95.1 ACRES OF PINE FLATWOOD FOREST OWNED BY
SFWMD LYING WEST OF AND ADJACENT TO JUPITER ISLES.
JUPITER TOWN COUNCIL FINAL HEARING RE JUPITER ISLES 9/3/02 7PM

Dear Mr. McCracken:

As a user, friend, and neighbor of Jonathan Dickinson State Park, I object to your approval of the above mentioned document proposed by John Fenniman on behalf of Schickedanz Capital Group LLC.

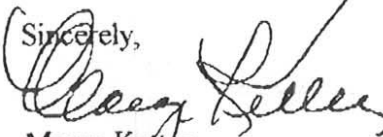

Any effort by the developer to mitigate the lack of adequate buffer on the western boundary of the Jupiter Isles project is unacceptable.

The 660-foot buffer in the 2000 Loxahatchee River Wild & Scenic Management Plan must be enforced. Complying with the Management Plan is required; it is not discretionary. The Plan requires increased buffering. It is not appropriate for you to support a 25-foot buffer when the Management Plan calls for 660.

SFWMD, DEP, local governments, and other agencies, all signed on to this Plan.

Members of the public are incensed the Plan is not being enforced!

Sincerely,

Marge Ketter
